

Release Date: August 31, 2016

IgnitionWeb Version: 4.1

| ID | NAME | COMPONENT | CATEGORY | TYPE | SUMMARY |
|------|----------------------------------|-----------------|-------------------------|-----------------------|--|
| 41.1 | Content Recovery | Core Libraries | Feature Update | New Functionality | Ensures work in progress is periodically saved and recoverable in the event of connectivity issues, timeouts, power failures, accidental navigation or logout. |
| 41.2 | File Upload Virus Scan | Core Libraries | Feature Update | Security Improvement | Implemented detection and quarantine functionality to protect websites and servers from malicious software uploads, including viruses. |
| 41.3 | Media Centre Contents Export | Media Centre | Feature Update | New Functionality | Enables full or partial export of Media Centre files into a single ZIP file that retains category hierarchy. |
| 41.4 | Password Algorithm Strengthening | Core Libraries | Performance Enhancement | Security Improvement | Upgraded password hashing method with the strongest algorithm available to optimally protect user accounts, web properties and digital assets. |
| 41.5 | Advanced CV Search | Careers Manager | Feature Update | New Functionality | Enables the parsing and search of user-submitted CV file contents; results are displayed in order of relevance with highlighted query keywords. |
| 41.6 | CV Files Export | Careers Manager | Feature Update | New Functionality | Enables administrators to export CV files either in batch or individually into a single ZIP file to be saved locally or onto a network. |
| 41.7 | Indefinite End Date | Core Libraries | Feature Update | Usability Improvement | Permits the configuration of indefinite end dates for dynamic content items such that they will not expire and become inaccessible via front-end interfaces. |
| 41.8 | Easier Content Search | Core Libraries | Feature Update | Usability Improvement | Facilitated searching by including a search field directly above popular listings; query results include those from all paginated pages. |

Release Date: August 31, 2016

IgnitionWeb Version: 4.1

| ID | NAME | COMPONENT | CATEGORY | TYPE | SUMMARY |
|-------|---|----------------------|-------------------------|-----------------------|--|
| 41.9 | Additional Jobs Administration States | Careers Manager | Feature Update | Usability Improvement | Added "Current" and "Archived" states to Careers Manager's Jobs Administration listings to improve organization and clarity. |
| 41.10 | Batch Actions for CV Submissions | Careers Manager | Feature Update | Usability Improvement | Enables the selection of multiple job application submissions for simultaneous re-categorization, ZIP file export or deletion. |
| 41.11 | Search Within Recipient Listing Pop-up | Mailing List Manager | Feature Update | Usability Improvement | Enables users to search the recipient pop-up listing by name or email in order to find recipients faster and avoid browsing through paginated listings. |
| 41.12 | Batch Remove Within Recipient Listing Pop-up | Mailing List Manager | Feature Update | Usability Improvement | Enables users to batch remove multiple recipients that appear in the recipient listing pop-up when customizing a mailing. |
| 41.13 | Multiple Recipient Search in Recipient Listing Pop-up | Mailing List Manager | Feature Update | Usability Improvement | Enables users to search for multiple recipients at once in a recipient listing pop-up for greater control of a mailing's recipient list. |
| 41.14 | Default Template Option | Mailing List Manager | Feature Update | Usability Improvement | Assigns a default template to all messages created within a campaign in order to standardize formatting and avoid manual template selection and content styling. |
| 41.15 | Improved Subscriber Upload Summary | Mailing List Manager | Feature Update | Usability Improvement | Improved the Mailing List Manager subscriber upload summary by making the summary table more intuitive. |
| 41.16 | Improved Subscriber Search | Mailing List Manager | Performance Enhancement | Usability Improvement | Improved term search functionality by using AND instead of OR when searching multiple word terms in the Mailing List Manager Subscriber search field. |
| 41.17 | Improved Messages Search | Mailing List Manager | Performance Enhancement | Usability Improvement | Improved term search functionality by using AND instead of OR when searching multiple word terms in the Mailing List Manager Messages search field. |

Release Date: August 31, 2016

IgnitionWeb Version: 4.1

| ID | NAME | COMPONENT | CATEGORY | TYPE | SUMMARY |
|-------|---|----------------------|-------------------------|-----------------------|--|
| 41.18 | Multilingual Character Validation | Mailing List Manager | Feature Update | Core Update | Gives users the option to add a UTF-8 content-type header, if missing, to a mailing created via advanced mode or ZIP upload. |
| 41.19 | Unsubscribe Field Text Retention | Mailing List Manager | Feature Update | Resolved Issue | Ensures text retention in unsubscribe fields when going from step 3 to step 2 when creating a mailing. |
| 41.20 | Hourly Visit Bars | Site Statistics | Feature Update | Resolved Issue | Displays hourly visit bars for data that has been extracted from Google Analytics. |
| 41.21 | Improved Anchor Link Handling | Mailing List Manager | Performance Enhancement | Resolved Issue | Improved the way anchor links behave when used in mailings. |
| 41.22 | MLM Mailings Return Path Improvement | Mailing List Manager | Feature Update | Core Update | Improved the configuration to the way return-path addresses are set in mailings. |
| 41.23 | Batch Action Status Changes | Media Centre | Feature Update | Resolved Issue | Adjusted batch actions in Media Centre for improved functionality of administrator privileges. |
| 41.24 | Job Submission Rating Filter | Careers Manager | Feature Update | Usability Improvement | Implemented a filter system that allows administrators to filter job submissions by pre-defined ratings. |
| 41.25 | Improved Pagination in Message Search Results | Mailing List Manager | Performance Enhancement | Usability Improvement | Ensures consistent pagination behaviour in Mailing List Manager for a friendlier administrative experience. |
| 41.26 | Improved Pagination | Core Libraries | Performance Enhancement | Usability Improvement | Ensures consistent pagination behaviour when switching states within listings. |
| 41.27 | Personalized Font-Size Setting | User Interface | Feature Update | Resolved Issue | Updated the administrator preference of text font-size to allow for both a smaller and larger font. |

Release Date: August 31, 2016

IgnitionWeb Version: 4.1

| ID | NAME | COMPONENT | CATEGORY | TYPE | SUMMARY |
|-------|---|-----------------------|-------------------------|-----------------------|--|
| 41.28 | Improved Ranking for Related Items | News Manager | Feature Update | Usability Improvement | Ensures that the related items that are selected to accompany a news article appear in chronological order. |
| 41.29 | Improved Prilvilege Tree | Administrator Manager | Feature Update | Usability Improvement | Added an "Expand All" option to the privilege section in Administrator Manager for an expanded comprehensive view of a selected user's privileges. |
| 41.30 | Mouse-Over Hover Effect | Core Libraries | Feature Update | Usability Improvement | Added a discernible mouse-over hover effect in the edit privileges section of Administrator Manager for improved clarity. |
| 41.31 | File Validation in Gallery Manager | Gallery Manager | Performance Enhancement | Resolved Issue | Added file validation in Gallery Manager to ensure that selected files being uploaded are images and not any other type of file. |
| 41.32 | Clear Filename for Unsupported File Types | Media Centre | Feature Update | Resolved Issue | Ensures that when attempting to upload unsupported file types in Media Centre the filename field is cleared upon reset. |
